

Dreaded An Operation More Than Anything

Tried Fruitoia and Traxo and Has Never Since Been Troubled With Gall-stones.

Mrs. Mary E. Franse, whose address is West Point, Nebr., Box 411, has written to the Pinau laboratories a very strong endorsement of Fruitoia and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitoia and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

MRS. MARY E. FRANSE

Fruitoia is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitoia, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

In the files of the Pinau laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fruitoia and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Anderson Fruitoia and Traxo can be obtained at Evans' Pharmacy, three stores.

Men change their minds as much as women do, but they don't let it show so much.—Albany Journal.
Hubby (the breakfast.)—"I've got a bad head this morning." Wife—"I'm sorry, dear. I do hope you'll be able to shake it off."—Boston Transcript.

What is the most difficult disease you have to contend with?" asked the student. "Imagination," replied the doctor.—Kansas City Journal.

Worth Their Weight in Gold.
"I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headaches, dizzy spells and other symptoms denoting a torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold," writes Miss Clara A. Driggs, Elba, N. Y. For sale by all dealers.

To the Public.
"I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." For sale by all dealers.

GERMANS HAVE LOST TWENTY SUBMARINES

English Paper Says Germany Now Has Only Fourteen Seagoing Submarines.

London, Sept. 17.—The Germans have lost 20 submarines since the war began, according to a editorial note in "Motor Ship and Motor Boat," while the British losses have been only seven, including the E-7, the destruction of which was announced yesterday.

The paper says that when the war began Germany had 11 sea-going submarines and 16 of a smaller type. On June 1 ten new ones were added. The assertion is made that the Germans now have only 14 sea-going submarines, two of which are in the Mediterranean.

A further large number of troops is reported by the Balkan agency to have been called to the Greek colors. An Athens correspondent of this agency says a royal decree has been issued calling out the reservists of the class of 1886, 1887 and 1888 on October 1.

Utility and Beauty.

(From the Wall Street Journal.)
When the big power plant of the Ozark Power & Water Co., on the White river in southwest Missouri was erected it was necessary to construct a high dam, which formed a lake over 18 miles long in the heart of the Ozark mountains. An official of the Missouri Pacific visited the lake and was struck by its beauty. He immediately named it Lake Taneycomo, forming the name from that of the county with the abbreviations for "county" and "Missouri."

Then the railway company began to advertise the beauties of the new lake and as a result it is now lined with cottages of visitors from St. Louis, Kansas City, Joplin and other Missouri cities and bids fair to become the most popular summer resort in the state. The power company intending only to utilize the water of the White river for power now finds that it has given the state one of the beauty spots of the country.

Two Austrian Destroyers Sunk.

Turine, Italy, Sept. 18.—An Ancona dispatch to Stampa says the captain of the steamer Concettina reports he was chased by two Austrian torpedo boat destroyers off Carano peninsula. An Italian submarine engaged the destroyers and sank them.

Many Complaint Heard.

This summer seems to have produced an unusual amount of sickness. Many complain of headaches, lame backs, rheumatism, biliousness and of being "always tired." Aches, pains and ills caused by the kidneys failing to do their work and throw the poisonous waste from the system yield quickly to Foley Kidney Pills. They help elimination, give sound sleep and make you feel well and strong. They are tonic in action. Sold everywhere.

Sergeant—Now, then don't you know how to hold a rifle?
Recruit—I've run a splinter in my finger.

Sergeant (exasperated)—Oh you have, have you? Bin scratchin' yer head, I suppose?—Exchange.

THE BROKEN COIN UNIVERSAL
AT THE BIJOU EVERY THURSDAY

His Rest Was Broken.
O. D. Wright, Rosemont, Neb. writes: "For about six months I was bothered with shooting and continual pains in the region of my kidneys. My rest was broken nearly every night by frequent action of my kidneys. I was advised by my doctor to try Foley Kidney Pills and one 50 cent bottle made a well man of me. I can always recommend Foley Kidney Pills for I know they are good." This splendid remedy for backache, rheumatism, sore muscles and swollen joints contains no habit forming drugs. Sold everywhere.

COMMUNICATION
September 17, 1915.
To The Editor Anderson Intelligencer:
I have read your editorial "Labor Representative Writes" with interest. The whole thing can be characterized only as fabrication from beginning to end, which no fair-minded man acquainted with the real facts in the matter would consider for a moment. Do you think that the public has so soon forgotten your statement of the policy of the Daily Intelligencer toward organized labor, wherein you said "I am opposed to such things (trade unions) and we don't want to see them get started here." You made this statement to me this morning after the first local union of the United Textile Workers of America was organized here. Mr. W. W. Matthews, a district organizer for the American Federation of Labor, had submitted to one of your reporters a simple news item concerning the organization of the new local, and had been told that the article would be printed. When the article failed to appear, I called on you to see why it had been left out. Your answer to me was that you were editing the paper and printed what you want to and left out what you did not want to print. I replied that since you had printed several articles dealing with the mill authorities side of the affair; I thought it only just that you print our statement. I reminded you that the officers of the different mills belong to the different manufacturing associations which are nothing more or less than unions organized for their mutual benefit and protection, and that you print our statement. I reminded you that the officers of the different mills belong to the different manufacturing associations which are nothing more or less than unions organized for their mutual benefit and protection, and that if unions were the proper thing for the employer they surely were the proper thing for the employees.

NEEDED

The Piedmont believes without qualification in the righteousness of arbitration as a means of settling labor disputes. Employees should not resort to a strike nor employers to a lockout until an honest effort has been made to settle their differences by means of arbitration by fair-minded disinterested persons. The findings of fact and recommendations of such arbitrators will undoubtedly command the respect and incline the support of the public. And it will be hard for either side to a labor controversy to win if the weight of public opinion be against it.

Two strikes are in progress in South Carolina at present, one of the employees of the street railway company in Columbia and the other of the operatives of the Brogan mills at Anderson. The public is interested in both. What is the truth as to each? How can the pressure of public opinion be rightly brought to bear, if the truth be not known? How can the public ascertain the truth from conflicting claims made by the parties at interest and odds?

It will be progressive legislation for the general assembly at its coming session to create a board of arbitration and conciliation, before which all labor disputes must be laid and whose conclusions must be made public. We are not prepared to say that its decisions should have binding force and effect. We would oppose such a step. But, if the work of such a board were done fairly and fearlessly, public opinion would go far toward enforcing its recommendations. The members of such a board should be men of the highest character and known not to be partisans of either labor or capital. South Carolina is fast becoming an industrial state and must, therefore, have progressive industrial legislation.—Greenville Piedmont.
